PROCEEDINGS

OF THE

ROYAL SOCIETY OF EDINBURGH.

SESSION 1875–76.

CONTENTS.

Monday, 22*d November* 1875.

	PAGE
Office-Bearers,	1

Monday, 6*th December* 1875.

Opening Address by the Senior Vice-President, DAVID MILNE HOME, Esq. of Wedderburn, LL.D.,	2
The Volcanic Eruptions of Iceland in 1874 and 1875. By Captain BURTON. (With two Maps of Iceland),	44

Monday, 20*th December* 1875.

Vortex Statics. By Sir WILLIAM THOMSON,	59
Experiments illustrating Rigidity produced by Centrifugal Force. By JOHN AITKEN, Esq.,	73

Monday, 3*d January* 1876.

On the Electrical Conductivity of Stretched Silver Wires. By J. G. MACGREGOR, M.A., B.Sc. Communicated by Professor TAIT,	79
On the Defoliation of the Coniferæ. By Dr STARK,	85
On Diamagnetic Rotation. By GEORGE FORBES, Esq., M.A., F.R.A.S.,	85
On the Linear Differential Equation of the Second Order. By Professor TAIT,	93
On Two-dimensional Motion of mutually influencing Vortex-columns, and on Two-dimensional Approximately Circular Motion of a Liquid. By Sir W. THOMSON,	98

[*Turn over.*

PAGE

Monday, 17*th January* 1876.

On the Origin of Language—Max-Müller, Whitney. By Professor Blackie, ... 98

Monday, 7*th February* 1876.

Note on Certain Formulæ in the Calculus of Operations. By Professor Stokes, Hon. F.R.S.E. (In a Letter to Professor Tait), ... 101

A Further Contribution to the Placentation of the Cetacea (*Monodon Monoceros*). By Professor Turner, . . 103

Observations on the Zodiacal Light. By C. Michie Smith. Communicated by Professor Tait, . . . 110

Note on the Volcanoes of the Hawaiian Islands. By J. W. Nichol, F.R.A.S. Communicated by Professor Tait, . 113

New General Formulæ for the Transformation of Infinite Series into continued Fractions. By Thomas Muir, M.A., ... 117

Laboratory Notes. By Professor Tait—

a. On a Possible Influence of Magnetism on the Absorption of Light, and some correlated subjects, . 118

b. On a Mechanism for Integrating the General Linear Differential Equation of the Second Order, 118

c. The Electric Conductivity of Nickel. By C. Michie Smith and J. Gordon MacGregor, . . 120

Monday, 21*st February* 1876.

On the Structure of the Body-wall in the Spionidæ. By W. C. M'Intosh, M.D., ... 123

Note on Circular Crystals. By E. W. Dallas, . . 129

Preliminary Note on the Flame produced by putting Common Salt into a Fire. By C. M. Smith. Communicated by Professor Tait, ... 133

Monday, 6*th March* 1876.

The Annual Periods of Thunder (with Lightning), Lightning (only), Hail, and Snow, at Oxford. By Alex. Buchan, M.A.. 135

Note on the Origin of Thunderstorms. By Prof. Tait, . 136

For continuation of Contents, see pp. 3 *and* 4 *of Cover.*

PAGE

An Application of Professor James Thomson's Integrator to harmonic Analyses of Meteorological, Tidal, and other Phenomena, and to the Integration of Differential Equations. By Sir W. Thomson, ... 138

Note on the Thermo-Electric Position of Cobalt. By Prof. Tait, ... 138

On a Glass Digester in which to Heat Substances under Pressure. By Dr E. A. Letts, ... 139

Monday, 20th March 1876.

On the Connection between Cohesion, Elasticity, Dilatation, and Temperature. By Professor George Forbes, . 141

Notice of the Completion of the Works designed by Sir Charles A. Hartley, F.R.S.E., for the Improvement of the Danube. By David Stevenson, V.P.R.S.E., . 142

Monday, 3d April 1876.

Chapters on the Mineralogy of Scotland. By Professor Heddle. Chapter I.—On the Rhombohedral Carbonates. Communicated by Professor Tait, . . 144

On Thermo-Dynamic Motivity. By Sir W. Thomson, . 144

On the Vortex Theory of Gases, of the Condensation of Gases on Solids, and of the Continuity between the Gaseous and Liquid State of Matter. By Sir W. Thomson, ... 144

On two new Laboratory Apparatus. By William Dittmar, 144

Monday, 17th April 1876.

On an Improved Form of Galvanic Battery. By J. Cook. Communicated by Professor Tait, . . . 148

On the Properties of the Perigon Versor. By G. J. P. Grieve. Communicated by Professor Kelland, . 149

Descriptions of some new or imperfectly understood Forms of Palæozoic Corals. By H. Alleyne Nicholson, M.D., D.Sc., F.R.S.E., Professor of Natural History in the University of St Andrews, and James Thomson, F.G.S., 149

On a Stable and Flexible Arch. By Professor Fleeming Jenkin, ... 151

PAGE

Monday, 1*st May* 1876.

Is the Gaelic Ossian a Translation from the English? By Professor Blackie, ... 151

Monday, 15*th May* 1876.

Notes on Dredging in Madeira, by the Rev. Robert Boog Watson, B.A., F.R.S.E., F.G.S., ... 153

Note on a New Fossil Foot-Print from the Permian Sandstone of Dumfriesshire. By Patrick Dudgeon, F.R.S.E. (Plate I.), ... 154

On the Decennial Period in the Mean Amplitude of the Diurnal Oscillation and Disturbance of the Magnetic Needle and of the Sun-spot Area. By J. A. Broun, F.R.S., ... 155

On the Parallel Roads of Lochaber. By David Milne Home, LL.D., ... 159

Monday, 5*th June* 1876.

Physical Observations in Northern Asia. By Professor G. Forbes, ... 161

On Parallel Motions. By the Rev. John Wilson, M.A., Bannockburn Academy. Communicated by Professor Kelland, ... 161

Laboratory Notes. By Professor Tait—

a. On the Passage of the Electric Current from Amalgamated Zinc Sulphate Solution. By J. G. MacGregor, M.A., ... 170

b. On the Thermo-Electric Properties of Cobalt, &c. By Messrs Knott, MacGregor, and C. M. Smith, 170

c. Measurements of the Potentials required for Long Sparks of a Holtz Machine. By Messrs Macfarlane and Paton, ... 170

Note on Orthogonal Isothermal Surfaces. By Professor Tait, ... 170

Notice of some recent Atmospheric Phenomena. By Professor Tait, ... 170

Report by the Society's Boulder Committee. (Plates II. and III.), ... 170

PROCEEDINGS

OF

THE ROYAL SOCIETY

OF

EDINBURGH.

VOL. IX.

NOVEMBER 1875 TO JULY 1878.

EDINBURGH:
PRINTED BY NEILL AND COMPANY.
MDCCCLXXVIII.

CONTENTS.

Election of Office-Bearers, ... 1

Opening Address. Session 1875–76. By the Senior Vice-President, David Milne Home, Esq. of Wedderburn, LL.D., . 2

The Volcanic Eruptions of Iceland in 1874 and 1875. By Captain Burton. (With two Maps of Iceland), ... 44

Vortex Statics. By Sir William Thomson, ... 59

Experiments illustrating Rigidity produced by Centrifugal Force. By John Aitken, Esq., ... 73

On the Electrical Conductivity of Stretched Silver Wires. By J. G. MacGregor, M.A., B.Sc. Communicated by Professor Tait, . 79

On the Defoliation of the Coniferæ. By Dr Stark, . . . 85

On Diamagnetic Rotation. By George Forbes, Esq., M.A., F.R.A.S., 85

On the Linear Differential Equation of the Second Order. By Professor Tait, ... 93

On Two-dimensional Motion of mutually influencing Vortex-columns, and on Two-dimensional Approximately Circular Motion of a Liquid. By Sir W. Thomson, ... 98

On the Origin of Language—Max-Müller, Whitney. By Professor Blackie, ... 98

Note on Certain Formulæ in the Calculus of Operations. By Professor Stokes, Hon. F.R.S.E. (In a Letter to Professor Tait), . 101

A Further Contribution to the Placentation of the Cetacea (*Monodon Monoceros*). By Professor Turner, ... 103

Observations on the Zodiacal Light. By C. Michie Smith. Communicated by Professor Tait, ... 110

Note on the Volcanoes of the Hawaiian Islands. By J. W. Nichol, F.R.A.S. Communicated by Professor Tait, . . . 113

New General Formulæ for the Transformation of Infinite Series into continued Fractions. By Thomas Muir, M.A., . . 117

Laboratory Notes. By Professor Tait—

a. On a Possible Influence of Magnetism on the Absorption of Light, and some correlated subjects, . . . 118

PAGE

b. On a Mechanism for Integrating the General Linear Differential Equation of the Second Order, ... 118

c. The Electric Conductivity of Nickel. By C. Michie Smith and J. Gordon MacGregor, ... 120

On the Structure of the Body-wall in the Spionidæ. By W. C. M'Intosh, M.D., ... 123

Note on Circular Crystals. By E. W. Dallas, ... 129

Preliminary Note on the Flame produced by putting Common Salt into a Fire. By C. M. Smith. Communicated by Professor Tait, ... 133

The Annual Periods of Thunder (with Lightning), Lightning (only), Hail, and Snow, at Oxford. By Alexander Buchan, M.A., . 135

Note on the Origin of Thunderstorms. By Professor Tait, . . 136

An Application of Professor James Thomson's Integrator to harmonic Analyses of Meteorological, Tidal, and other Phenomena, and to the Integration of Differential Equations. By Sir W. Thomson, 138

Note on the Thermo-Electric Position of Cobalt. By Professor Tait, 138

On a Glass Digester in which to Heat Substances under Pressure. By Dr E. A. Letts, ... 139

On the Connection between Cohesion, Elasticity, Dilatation, and Temperature. By Professor George Forbes, ... 141

Notice of the Completion of the Works designed by Sir Charles A. Hartley, F.R.S.E., for the Improvement of the Danube. By David Stevenson, V.P.R.S.E., ... 142

Chapters on the Mineralogy of Scotland. By Professor Heddle. Chapter I.—On the Rhombohedral Carbonates. Communicated by Professor Tait, ... 144

On Thermo-Dynamic Motivity. By Sir W. Thomson, . . . 144

On the Vortex Theory of Gases, of the Condensation of Gases on Solids, and of the Continuity between the Gaseous and Liquid State of Matter. By Sir W. Thomson, ... 144

On two new Laboratory Apparatus. By William Dittmar, . . 144

On an Improved Form of Galvanic Battery. By J. Cook. Communicated by Professor Tait, ... 148

On the Properties of the Perigon Versor. By G. J. P. Grieve. Communicated by Professor Kelland, ... 149

Descriptions of some new or imperfectly understood Forms of Palæozoic Corals. By H. Alleyne Nicholson, M.D., D.Sc., F.R.S.E., Professor of Natural History in the University of St Andrews, and James Thomson, F.G.S., ... 149

On a Stable and Flexible Arch. By Professor Fleeming Jenkin, . 151

Is the Gaelic Ossian a Translation from the English? By Professor Blackie, ... 151

Notes on Dredging in Madeira. By the Rev. Robert Boog Watson, B.A., F.R.S.E., F.G.S., ... 153

PAGE

Note on a New Fossil Foot-Print from the Permian Sandstone of Dumfriesshire. By Patrick Dudgeon, F.R.S.E. (Plate I.), . 154

On the Decennial Period in the Mean Amplitude of the Diurnal Oscillation and Disturbance of the Magnetic Needle and of the Sun-spot Area. By J. A. Broun, F.R.S., ... 155

On the Parallel Roads of Lochaber. By David Milne Home, LL.D., 159

Physical Observations in Northern Asia. By Professor G. Forbes, . 161

On Parallel Motions. By the Rev. John Wilson, M.A., Bannockburn Academy. Communicated by Professor Kelland, . . 161

Laboratory Notes. By Professor Tait—

a. On the Passage of the Electric Current from Amalgamated Zinc Sulphate Solution. By J. G. MacGregor, M.A., . 170

b. On the Thermo-Electric Properties of Cobalt, &c. By Messrs Knott, MacGregor, and C. M. Smith, . . 170

c. Measurements of the Potentials required for Long Sparks of a Holtz Machine. By Messrs Macfarlane and Paton, 170

Note on Orthogonal Isothermal Surfaces. By Professor Tait, . 170

Notice of some Recent Atmospheric Phenomena. By Professor Tait, 170

Report by the Society's Boulder Committee. (Plates II. and III.), 170

Election of Office-Bearers, ... 203

Opening Address by the Rev. W. Lindsay Alexander, D.D., . . 204

On the Roots of the Equation $V \rho\varphi\rho = 0$. By Gustav Plarr. Communicated by Professor Tait, ... 237

Applications of the Theorem that Two Closed Plane Curves intersect an even number of times. By Professor Tait, . . . 237

On the Distribution of Volcanic Debris over the Floor of the Ocean,—its Character, Source, and some of the Products of its Disintegration and Decomposition. By John Murray, Esq. Communicated by Sir C. Wyville Thomson, ... 247

On New and Little-known Fossil Fishes from the Edinburgh District. No. I. By R. H. Traquair, M.D., F.G.S., . . . 262

On the Ruff (*Machetes Pugnax*). By Professor Duns, . . 272

Communication from the President relative to the Administration of the Government Fund of £4000, ... 275

On New and Little-known Fossil Fishes from the Edinburgh District. No. II. By R. H. Traquair, M.D., F.G.S., . . 275

Note on Clapeyron's Formula. By Professor Dewar, . . 283

Note on the Specific Gravity of Ocean Water. By J. Y. Buchanan, 283

Note on the Manganese Nodules found on the bed of the Ocean. By J. Y. Buchanan, ... 287

Note on the Measure of Beknottedness. By Professor Tait, . . 289

Note on the Effect of Heat on Infusible Impalpable Powders. By Professor Tait, ... 298

Abstract of Additional Memoir on the Parallel Roads of Lochaber. By D. Milne Home, LL.D., ... 299

PAGE

On Some Effects of Heat on Electro-Static Attraction. By Prof. Tait, 302
On the Curves produced by Reflection from a Polished Revolving Wire. By Edward Sang, Esq., ... 302
On an Ammonia-Cupric Zinc Chloride. By E. W. Prevost, Ph.D., . 302
On a Peculiarity of the Diurnal Hygrometric Curve at Geneva. By Alexander Buchan, Esq., ... 304
On Knots. By Professor Tait, ... 306
Presentation of the Makdougall-Brisbane Prize to Alexander Buchan, M.A., ... 319, 486
On the Action of Sulphuretted Hydrogen on the Hydrate and on the Carbonate of Trimethyl-Sulphine. By Professor Crum Brown, . 319
On Links. By Professor Tait, ... 321
Laboratory Notes. By Professor Tait—

a. Measurement of the Potential required to produce Sparks of various lengths, in Air at different pressures, by a Holtz Machine. By Messrs Macfarlane and Paton, . 332

b. The Thermal Conductivity of Gas Coke. By Messrs Knott and Macfarlane, ... 333

c. Preliminary Experiments on the Currents produced by contact of Wires of the same metal at different Temperatures. By Messrs Knott and Macfarlane, . . 333

d. On the Relative Percentages of the Atmosphere and of the Ocean which would flow into a given Rent in the Earth's Surface. By Professor Tait, ... 333

On the Biliary Secretion with reference to the Action of Cholagogues. By Professor Rutherford, F.R.SS. L. and E., and M. Vignal, . 334
Specimen of Auriferous Quartz. By Patrick Dudgeon, . . 338
On a Problem of Arrangements. By Professor Cayley, . . 338
On the Construction of the Canon of Sines, for the Decimal Division of the Quadrant. Edward Sang, Esq., ... 343
On the Precautions to be taken in recording and using the Records of Original Computations. Edward Sang, Esq., . . . 349
On an Unnamed Palæozoic Annelid. By Prof. Duns. (Plate IV.), 352
On Eisenstein's Continued Fraction. By Thomas Muir, M.A., . 359
Note on an Infinitude of Operations. By Thomas Muir, M.A., . 359
Note on Determinant Expressions for the Sum of a Harmonical Progression. By Thomas Muir, M.A., ... 361
Sevenfold Knottiness. By Professor Tait, ... 363
Exhibition of a Large Map showing the Progress of the Geological Survey of Scotland. By Professor Geikie, . . . 367
Notice of a Saline Water from the Volcanic Rocks of Linlithgow. By Professor Geikie, F.R.S., ... 367
On the Arrangement and Relations of the Great Nerve-Cords in the Marine Annelids. By W. C. M'Intosh, M.D., F.R.S.E., F.L.S., . 372

PAGE

On the Application of Graphic Methods to the Determination of the Efficiency of Machinery. By Professor Fleeming Jenkin, . 381

On Professor Tait's Problem of Arrangement. By Thomas Muir, M.A., ... 382

On Mr Muir's Discussion of Professor Tait's Problem of Arrangements. By Professor Cayley, ... 388

On Amphicheiral Forms and their Relations. By Professor Tait, . 391

On the Toothing of Un-round Discs which are intended to roll upon each other. By Edward Sang, ... 393

On the Mineralogy of Scotland. Chapter II. By Professor Heddle, 393

Least Roots of Equations. By J. D. Hamilton Dickson, . . . 393

On New and Little-known Fossil Fishes from the Edinburgh District. No. III. By Dr R. H. Traquair. (*See* Appendix), . 394

On Ocean Circulation. By John Aitken, ... 394

On a New Investigation of the Series for the Sine and Cosine of an Arc. By Edward Sang, ... 400

Note on the Bifilar Magnetometer. By J. A. Broun, F.R.S. Communicated by Professor Tait, ... 402

Addition to the paper "On the Establishment of the Elementary Principles of Quaternions." By G. Plarr. Published in Vol. XXVII. of the Transactions of the Society. Communicated by Professor Tait, ... 402

Note on Mr Muir's Solution of a "Problem of Arrangement." By Professor Cayley, ... 402

Preliminary Note on a New Method of Investigating the Properties of Knots. By Professor Tait, ... 403

On the Cranial Osteology of Rhizodopsis, and on some points in the Structure of Rhizodus. By Dr R. H. Traquair. (*See* Appendix), 403

Notice of Recent Earthquake Shocks in Argyleshire in 1877. By David Stevenson, Civil Engineer, ... 403

Additional Remarks on Knots. By Professor Tait, ... 405

On the Structure and Relations of the Genus Holopus. By Sir C. Wyville Thomson, F.R.S., ... 405

On the Diurnal Oscillations of the Barometer. Part II. By Alexander Buchan, M.A., ... 410

On the Air Dissolved in Sea-Water. By J. Y. Buchanan, . . . 412

Why the Barometer does not always indicate real Vertical Pressure: A continuation of the Paper laid before the Royal Society of Edinburgh in July 1875, in which, in addition to several other points, this was attempted to be shown. It is now more fully written out. By Robert Tennent, ... 412

Laboratory Notes. By Professor Tait—

a. On an Effect of Heat on Electro-Static Action, . . . 415

b. On Dr Blair's *Scientific Aphorisms* in connection with the Ultra-Mundane Particles of Le Sage, ... 415

PAGE

Note on an Identity. By Professor Tait, ... 416

APPENDIX :—

The Thermo-Electric Properties of Cobalt. By Messrs C. G. Knott, J. Gordon MacGregor, and C. Michie Smith, . . 421

Notice of some Recent Atmospheric Phenomena. By Professor Tait, ... 425

On New and Little-known Fossil Fishes from the Edinburgh District. No. III. By R. H. Traquair, M.D., F.G.S., . 427

On the Cranial Osteology of Rhizodopsis, and on some points in the Structure of Rhizodus. By Dr R. H. Traquair, . . 444

Election of Office-Bearers, ... 471

Opening Address by the Vice-President, Principal Sir Alexander Grant, Bart., ... 472

Remarks by Sir William Thomson on delivering the Makdougall-Brisbane Prize to Mr Buchan, ... 486

Report of the Deputation to Upsala. By Alexander Buchan, M.A., 521

On a Method of Determining the Cohesion of Liquids. By J. B. Hannay, F.C.S., ... 526

Note on Vector Conditions of Integrability. By Professor Tait, . 527

On Gladstone's Theory of Colour-Sense in Homer. By Professor Blackie, ... 533

Note on a Geometrical Theorem. By Professor Tait, . . 533

On the Tabulation of all Fractions whose values are between two prescribed limits. By Edward Sang, ... 536

Can the Law of Multiple Proportions be demonstrated from Analytical Data? By W. Dittmar, ... 536

On the Solid Fatty Acids of Coco-Nut Oil. By G. Carr Robinson, . 537

Suspension, Solution, and Chemical Combinations. By William Durham, ... 537

Note on the Surface of a Body in terms of its Mass. By Professor Tait, ... 541

On a White Sunbow. By Sir Robert Christison, Bart., Professor Tait, Mr J. Christison, Mr Buchan, and Dr Ferguson, . 542–48

Letter on the Phonograph. By H. E. Rosevelt, . . . 548

Address by Sir Wyville Thomson on delivering the Neill Prize to Dr Traquair, ... 549

Chapters on the Mineralogy of Scotland. Chapter III.—The Garnets. By Professor Heddle, ... 550

On the Strength of the Currents required to work a Telephone. By Professor Tait, ... 551

Experiments with the Telephone. By James Blyth. Communicated by Professor Tait, ... 553

On the Theory of the Telephone. By Professor George Forbes, . 555

Some Experiments with the Telephone. By John G. M'Kendrick, M.D., ... 558

PAGE

The application of the Graphic Method to the determination of the efficiency of a direct-acting Steam-Engine. By Professor Fleeming Jenkin, ... 563

On the Disruptive Discharge of Electricity. By Alexander Macfarlane, M.A., B.Sc. Communicated by Professor Tait, . . 563

On the Compressibility of Water, Sea-Water, a four per cent. Chloride of Sodium Solution, Mercury, and Glass. By J. Y. Buchanan, M.A., F.R.S.E., ... 565

On the Action of Heat on some Salts of Trimethyl-Sulphine. By Professor Crum Brown and J. Adrian Blaikie, Esq., . . 565

Extracts from two letters on the Refractive Indexes of Glass and Quartz, as tested by Reflection from the Surface. By Professor Quincke. Communicated by Sir William Thomson, . . 567

Mr Gott's and Professor Bell's Explanation of the Action of the Telephone, ... 570

Proposed Theory of the Progressive Movement of Barometric Depressions or Storms; being in continuation of the Paper read before the Society on July 5, 1875. By Mr Robert Tennent, . . 570

On the Thermo-Electric Properties of Charcoal and certain Alloys, with a supplementary Thermo-Electric Diagram. By C. G. Knott, B.Sc., and J. G. MacGregor, D.Sc. Communicated by Professor Tait, ... 579

On the Auriferous Quartz of Wanlockhead. By Dr Lauder Lindsay, 579

On the Discharge of Electricity through Turpentine. By A. Macfarlane, B.Sc., and Mr R. J. S. Simpson. Communicated by Professor Tait, ... 579

Remarks on the Phonograph. By Professor Fleeming Jenkin and Mr J. A. Ewing, ... 579

On Thermal Conductivity. By Professor Tait, . . . 581

On the Wave Forms of Articulate Sounds. By Professor Fleeming Jenkin and Mr J. A. Ewing, ... 582

On the Action of the Chlorides of Iodine upon Acetylene and Ethylene. By George M'Gowan, ... 588

On some Definite Integrals. By Professor Tait, . . . 594

Chapters on the Mineralogy of Scotland. Chapter IV.—Augite Hornblende, and Serpentinous Change. By Professor Heddle, . 595

On the Old Red Sandstone of Western Europe. By Professor Geikie, F.R.S., ... 596

On Beats of Imperfect Harmonies. By Sir William Thomson, . 602

On Vortex Vibrations, and on Instability of Vortex Motions. By Sir William Thomson, ... 613

On the Theory of Vowel Sounds. By Professor M'Kendrick, . 613

Preliminary Note on a Method of Detecting Fire-Damp in Coal Mines. By Professor George Forbes, ... 613

Note on Electrolytic Conduction. By Professor Tait, . . 614

Note on Thermal Conduction. By Professor Tait, . . . 615

PAGE

On the Indications of Molecular Action in the Telephone. By R. M. Ferguson, Ph.D., ... 615

Sketch of the Arrangement of Tables of Ballistic Curves in a Medium resisting as the Square of the Velocity, and of the Application of these Tables to Gunnery. By Edward Sang, . . . 637

On some Physical Experiments relating to the Function of the Kidney. By David Newman, Glasgow. Communicated by Professor M'Kendrick, ... 648

Note of a Method of Studying the Binocular Vision of Colour. By John G. M'Kendrick, M.D., ... 654

On the Genus Rhizodus. By Dr R. H. Traquair, ... 657

On the Anatomy of a recent Species of Polyodon, the *Polyodon gladius* (Martens), taken from the river Yangtsze-Kiang, 450 miles above Woosung. Part III., being its *Viscera of Organic Life*. By P. D. Handyside, M.D., ... 660

A Mechanical Illustration of the Vibrations of a Triad of Columnar Vortices. By Sir William Thomson, ... 660

Fourth Report of Boulder Committee, with Remarks. By D. Milne Home, Esq., ... 660

Remarks by David Milne Home, LL.D., Convener of the Society's Boulder Committee, on presenting the Committee's Fourth Report at a Meeting of the Society, 20th May 1878, ... 692

On the Splitting up of Electric Currents, as detected by the Telephone, and the founding thereon of a Sounder to call attention from one Telephone to another. By R. H. Bow, R.E., . . 707

An Account of some Experiments on the Telephone and Microphone. By James Blyth, M.A., ... 711

Note on a Variation of the Microphone. By R. M. Morrison, D.Sc., ... 712

On the Action of Heat on some Salts of Trimethyl-Sulphine. Part II. By Professor Crum Brown and J. Adrian Blaikie, B.Sc., ... 712

On a Class of Determinants. By Mr J. D. H. Dickson, Tutor of St Peter's College, Cambridge, ... 714

On the Wave-Forms of Articulate Sounds. By Professor Fleeming Jenkin, F.R.S., and J. A. Ewing, B.Sc., ... 714

On the Electric Conductivity of the Bars employed in his Measurements of Thermal Conductivity. By Professor Tait, . . . 718

On the Biliary Secretion, with reference to the Action of Cholagogues. Part II. By Professor Rutherford, F.R.SS. L. and E., and M. Vignal, ... 718

On a New General Method of Preparing the Primary Monamines. By R. Milner Morrison, D.Sc., ... 721

On the Preparation and Properties of Pure Graphitoid and Adamantine Boron. By R. M. Morrison, D.Sc., and R. Sydney Marsden, B.Sc., ... 721

On Colour in Practical Astronomy, spectroscopically examined. By Professor Piazzi Smyth, ... 721

PAGE

On the Disruptive Discharge of Electricity. By Alexander Marfarlane, D.Sc., and P. M. Playfair, M.A., ... 721

On the Wave-Forms of the Vowel Sounds produced by the Apparatus exhibited by Professor Crum Brown. By Professor Fleeming Jenkin, F.R.S., and J. A. Ewing, B.Sc., . . 723

Notes on the Fungus Disease affecting Salmon. By A. B. Stirling, Assistant Conservator of the Anatomical Museum in the University of Edinburgh. Communicated by Professor Turner, . . 726

On some New Bases of the Leucoline Series. Part I. By G. Carr Robinson, Esq., ... 732

On the Crystallisation of Isomorphous Salts. By G. Carr Robinson, Esq., ... 732

On a New Method for the Separation of Yttrium and Erbium from Cerium, Lanthanum, and Didymium. Part I. By J. Gibson, Ph.D., and R. M. Morrison, D.Sc., ... 734

On certain Effects of Periodic Variation of Intensity of a Musical Note. By Professor Crum Brown and Professor Tait, . . 736

Note on a Mode of Producing Sounds of very great Intensity. By Professor Tait, ... 737

Donations to the Library of the Royal Society, . 178, 446, 739

Index, ... 767

BRITISH MUSEUM
